

Trump's "Lies" per CNN

Some Democratic-led states allow babies to be executed after birth

True. Medical schools taught doctors how to "let babies die" by neglect after birth. Nurses did to rescue some babies. "Partial birth" abortions are when the baby is killed after the head comes out.

Legal scholars and everybody in general wanted Roe v. Wade overturned

Partially true. Many top scholars recognized that the "right to life and liberty" applies to even the unborn. And the Roe vs Wade decision was not supported by U.S. law. Thus, murdering a pregnant mother results in 2 counts of murder. The nation is divided as to abortion but surveys vary according to results.

No terror attacks during his presidency

A generalization. Some isolated individuals with some terrorist ties did small attacks and murders. These were "Lone-wolf" attacks. No coordinated group activity was known.

Iran didn't fund terror groups during his presidency

Exageration Per CNN: Iran's funding for such groups did decline in the second half of his presidency, in large part because his sanctions on Iran had a major negative impact on the Iranian economy, but the funding never stopped entirely. Trump's sanctions on Iran had made life more difficult for terror groups While Biden policies drastically increased Iran's terror funding by billions each year.

Trump's "Lies" per CNN

Biden referred to Black people as "super predators,"

Partial truth. Per Snopes.

Biden, Jan 2020 "If we cannot make significant progress on racial equity, this country is doomed. It is doomed, not just because of African Americans, but because by 2040 this country is going to be minority white European."

While speaking in the Senate in 1993 in favor of the Violent Crime Control and Law Enforcement Act, Biden referred to young people who have become criminals as "predators."

"Joe Biden's history as a politician reveals a pattern of making explicitly racist comments, authoring and endorsing discriminatory policies, and associating with individuals known as segregationists," "(Texas Congressman Wesley) Hunt told Fox News Digital in a statement. "

Biden was slammed by fellow Democrats after invoking his ability decades ago to work with two segregationist southern senators to "get things done."

Biden brought up the names of Sens. Eastland of Mississippi and Herman Talmadge of Georgia while speaking at a fundraiser Tuesday in New York City. Eastland and Talmadge, two senior members in the Senate when Biden arrived in the chamber in 1973, were firmly opposed to desegregation efforts.

Partially True *if* you include inflation.

We have yet to know how much. Biden's statements that it will only be rich has not been the reality.

Nancy Pelosi turned down 10,000 National Guard troops for the US Capitol on January 6

Trump's "Lies" per CNN

Fraud marred the results of the 2020 election.

True

Initially courts refused to hear evidence although well demonstrated in many states. More recent court cases ruled several cases of fraud.

Democrrats refuse to accept any such evidence just as they said Biden was active and mentally alert.

Biden "Lies"

PER CNN: Biden made at least *nine false or misleading claims* in the debate.

- He used false numbers while describing two of his key Medicare policies,
- Falsely claimed that no US troops had been killed on his watch,
- Repeated his *usual misleading* figure about billionaires' tax rates,
- Baselessly claimed that Trump wants to eliminate Social Security,
- Falsely said that the unemployment rate was 15% when he took office,
- Inaccurately said that the Border Patrol union had endorsed him before clarifying that he was talking about agents' support for the border bill he had backed,
- Misquoted and distorted Trump's 2020 comments about the possibility of treating Covid-19 with perscription Hydrochorine to "by injecting disinfectant"

Plus misquoting numbers by a factor of millions.
